#### Information Science

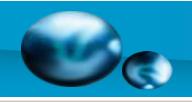

#### Discipline:

Management of *information* in any form

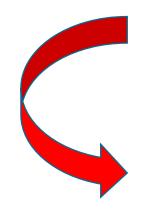

Study how Humans interact and obtain information

Information Seeking Behavior = Search Behavior = Foraging

Document = Object = Artefact

### Informatics

Information Science (Framework)

Computer Science (Tools)

#### Document

"transfer of information through time requires the existence of some storage medium, which is designated as a document"

"any physical or symbolic sign, preserved or recorded, intended to represent, to reconstruct or to demonstrate a physical or conceptual"

(Briet, 1951,p.7)

### Domain Specific Lexicon (aka Lingo)

**Medical Imaging** 

IMAGE --- INFORMATION OBJECT

## Two types of Images

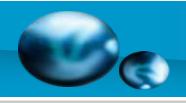

#### **ANALOG IMAGES**

Exist on something -> Surface Film, display or projection

Levels of Brightness or colors

Continuous

Humans Perceive → Visual System

### Two types of Images

#### **DIGITAL IMAGES**
